Husqvarna Lawn Mower: the useful basics

This compact guide covers general operation and care for the equipment family shown. Controls and procedures vary by model, so locate the complete model number and consult the manufacturer manual before service.

01

Pre-mow checklist

Check oil, fuel, blade condition, guards, and controls. Clear stones, branches, and other debris from the work area.

02

Cut quality

Mow dry grass with a sharp blade and remove no more than one-third of the grass height in a single pass.

03

Belt and deck care

Clear packed clippings after the machine cools and inspect the belt for glazing, cracking, or uneven wear.

SAFETY FIRST

Stop the engine and disconnect the spark-plug wire before service.
